ADDENDUM 3

Addendum Issue Date: January 10th, 2025

Addendum Subject: Response to Questions and Answers, Phase II

Addendum Page Numbers: 1

1. In Section VI, the last note on the page states: *“This information will be limited to a maximum of six (6) pages. Item 11 has a one (1) page requirement for a total of six (6) pages. “Could you clarify what “Item 11” refers to? Or is this a mistake?*

There is not an item 11 in this section. This is a typo and the page requirement for this can be ignored.

2. In Section VI.B., does the city want to see different past performance for Phase II, distinct from the “Prime Experience” submitted for Phase I?

Past performance examples from Phase I can be used in Phase II. We will not require new past performance projects/references for Phase II. We encourage firms to use their most relevant past performance examples relating to this project. Points will not be deducted for repeat example use.

3. How many printed copies do we need to provide?

One original and five copies. A USB drive with PDF is optional.
