

Department Report

Report Title: Water & Wastewater Treatment Department Report February 2025

Report Highlight: The annual water audit was completed and reported to the EPD before the deadline. This report did show an increase in nonrevenue water for the calendar year. After some discussions with City Staff, we have decided to have an outside agent look at the usage of water by our customers and see how they compare to other water systems. It was also agreed upon to have the Water Authority meter checked for inaccuracies. Neither project was complete by the time of this report.

Name and Title: John Jarrard, Water/Wastewater Treatment Director

Recently Completed

- Repaired vent line on brine tank at WTP
- Replaced all commo lines on flow control valves
- Preventive Maintenance on Reservoir Solar Bees (Contractor)
