

# Department Report

---

Report Title: Water & Wastewater Treatment Department Report February 2026

Report Highlight: The 2025 Water Audit was completed, qualified, and submitted to the state before the deadline. Both grading numbers improved over 2024 Water Audit numbers which showed we had a lower “nonrevenue water” total. We also received our inspection report from the Sanitary Survey that was performed by the EPD. No major issues were detected; only minor deficiencies and recommendations were noted. The only item that may become a heavy financial cost is the update to our current Source Water Assessment Plan. We are trying to get some clarification on this topic and as soon as our questions are answered we will have a report for the council. A response letter is being drafted and will be submitted before the 45-day time limit.

Name and Title: John Jarrard, Water/Wastewater Treatment Director

## Recently Completed

- 2025 Water Audit
- Repairs to overflow/drain screen at Sky Country Water Tank
- New Air Compressor at WTP
- Repaired air pressure regulator on PAC Feeder.
